

Cookie policy

What are cookies?

Cookies are small text files that websites visited by users send to their devices; they are stored to be transmitted back to the same sites during subsequent visits. Cookies are used for different purposes, they have different characteristics and can be used both by the owner of the site you are visiting, or by a third party. Below you will find all the information on the cookies installed by this website and all necessary information on how to manage your preferences about them.

Cookies used by this site.

The use of cookies by the owner of this site is included within its Privacy Policy; for all the required information go to the Visitor's Privacy page in this site.

Technical cookies.

Cookies strictly related to activities necessary to operate the site and to provide the service. Cookies relating to saved preferences and optimization. Statistical cookies used to collect information in aggregate and anonymous form. All technical cookies do not require consent, and are therefore installed automatically upon access to the site.

Third Party Cookies.

This site uses "third-party" cookies, intended to receive on your device, cookies sent from different web sites or servers while browsing on a website (the information is stored with third parties). Complete list of Privacy Policies of third-party cookies used: google analytics: www.google.it/intl/en/policies/privacy/

Cookie management.

How to enable or disable cookies. If you do not know the type and version of web browser you are using to access the Internet, click on the '?' at the top of your browser window, then click 'About'. The relevant information will be displayed.

Microsoft Internet Explorer.

Click on 'Tools' at the top of the browser window and select 'Internet Options', then click on the 'Privacy' tab. Make sure that the level of privacy is set to Medium or lower, which enable cookies in your browser. The settings above Medium disable cookies.

Google Chrome (last version).

Click on the icon in the upper right part of the browser window and select 'Settings'. Click 'Show advanced settings' at the bottom and locate the 'Privacy' section. Click 'Content Settings' and in the cookie section at the top, select 'Allow local data setting' to enable cookies. To disable cookies, select the options 'Block sites from setting any data', 'Block site data and third-party cookies' and 'Delete cookies and other site data, and plug-ins when the browser is closed'.

Mozilla Firefox.

Click 'Tools' at the top of the browser window and select Options. Next, select the Privacy icon at the top of the window that is displayed. Select the option 'Accept cookies from sites' to enable cookies. If you wish to disable cookies, remove the check mark from the box.

Safari.

Click the gear icon in the upper right part of the browser window and select 'Preferences'. Click the 'Privacy' icon in the upper part of the window that is displayed. Select the option 'Block third-party cookies and advertising'. If you want to disable cookies, select the 'Never' box.

Technical cookies are essential to the functioning of the site and cannot be disabled while using this website's functions. All cookies, other than the technical ones mentioned above, are only installed or activated because of the consensus expressed by users the first time they visit a site.
